

Common Core Vocabulary Cards

Second Grade Math

NOTE: These words are suggested concepts for the grade level. Your school or district might use more words or words with similar meanings to these. If so, substitute those words in on some of the blank cards at the end. Some of them are not words students should have to be able to define necessarily, but they should have a general idea of what they mean and/or should be able to identify them if shown them.

Common Core Vocabulary

a.m.

attribute

add

bar graph

addend

bar model

Additive Identity Property of 0

base-ten numeral form

analog clock

base-ten numerals

angle

category

array

cent

Associative Property of Addition

centimeter
